

Member Night at John Bunker Sands Wetland Center

Want to learn the story behind the East Fork Wetland? Join Loretta Mokry, Environmental Scientist, who planned a wetland system with John Bunker Sands back in the 1990's. Discover how Bunker's original plan and North Texas Municipal Water Districts current vision lead to the Wetland as it is today. Loretta will also be discussing the importance of the project as a water supply for North Texas.

**Thursday, March 15th
7:00—8:30 p.m.**
